**JORDAN'S MEXICAN POLICY.**

"To intervene in Mexican affairs at the present time, using our own mistakes as a basis for intervention, would be a blunder which would tend to destroy all our moral prestige," said Dr. David Starr Jordan upon his return from an interview at the border with prominent Mexicans with a view to adjusting Mexican troubles. He declares that investigation shows the Mexican revolutionary movements are a necessity in the reformation of the archaic and harmful remnants of the old Spanish regime. In the states not affected by the war there is entire order, schools are open, labor employed and a new growth of constructive citizenship is evident. Even in the war-ridden states, Dr. Jordan says, a start for order has been made, and out of the revolutions has grown a desire to make Mexico pay its own way instead of borrowing money at ruinous rates.

Dr. Jordan advocates the patrol of the border by both American and Mexican troops.

Our friends over in Medford who recently voted to authorize a bond issue of \$300,000 for the building of a railroad to the Blue Ledge mine are now involved in a merry war over the legal merits of the issue. Some say that it will never stand the test of the courts, while others hold that the voters put the stamp of approval upon it when they voted in its favor. Probably, like the bonds voted practically unanimously by Grants Pass and later by Roseburg, the Medfordites will find that a vote in favor of the bonds will not mean much if they have left some legal loopholes. It took Grants Pass two years to untangle her legal snarl and get action upon the bonds for building the railroad that will connect the Rogue valley with the coast.

There will be some pep injected into the next game between the Medford and Grants Pass baseballites. The Ashland Round-Up will have to take a back seat if the diamond contest is staged in the lithia city. Grants Pass expects her boys to win, but there will be no streak of yellow exhibited, whatever the outcome.

more than 15 feet deep—he will go anywhere.

The fishermen experts in and around New York think there is only one man-killer shark—but assuming their position to be correct, the big fish has shown an amazing faculty for travel and a boldness which does not match with supposed facts as to the timidity of sharks in general. A week ago, Charles Evan Santwell, of Philadelphia, was attacked at Beach Haven, N. J., and killed. Five days later, on July 6, Charles Bruder, at Sprink Lake, N. J., succumbed to terrible injuries inflicted by a man-eater. Yesterday, Lester Stillwell, 12, and five other boy playmates went swimming in Mattawan creek. Stillwell was seized after one of the other swimmers had felt the bruise of the impact of a big fish against his leg as he was drawing out of the water at Wyckoff's dock. He yelled a warning, but Stillwell was too far away,

and before he could reach the dock he was dragged under. When Stillwell's companions spread the alarm in Mattawan, W. Stanley Fisher, 25 years old, and accustomed to the sea, was among those who volunteered to aid in searching for the boy's body. Disregarding all warning, he dove repeatedly in the spot where the shark seized Stillwell. Finally he found the mangled body and was bringing it to shore when he felt the shark turning under him. He fought lustily with legs and feet, screaming for help, but holding tight to Stillwell's body. When he was finally dragged into a boat, it was seen his right leg had been literally torn into strips from the shark's teeth. Fisher died before he could be taken to a hospital.

**ILLINOIS MILITIA TO QUELL STRIKE**

Springfield, Ill., July 13.—Upon receipt of messages from citizens of LaSalle county and Sheriff Davis, urging the immediate necessity of sending two companies of militia to protect property during the strike of 1,200 cement workers in the cities of LaSalle and Oglesby, Governor Dunne this afternoon dispatched company A. Rock Island, and company B, Geneseo, both of the Sixth regiment, to the strike-ridden cities.

About 30 men of company A and about the same number from company B will arrive at LaSalle at four o'clock this afternoon. The remainder of both companies will arrive at five o'clock tonight.

**BOXING MATCHES FOR THE SOLDIERS**

General Pershing's Headquarters in Mexico, July 13 (Wireless to Columbus, N. M.)—Six slashing boxing matches wound up a smoker in the camp of the expeditionary forces here last night. The receipts will be used to buy more boxing gloves, baseballs and bats and other athletic supplies for the United States troops in Mexico.

The 20-foot ring was pitched on a knoll, said to be the resting place of forgotten Aztec chiefs who held sway over this region centuries ago. Members of General Pershing's staff attended, being seated on empty boxes, while the cheering soldiers squatted on the ground.

The color line was drawn in selecting opponents. A big black from the 10th cavalry was matched against a 24th infantryman. Several of the white fighters bear army reputations for their cleverness with the gloves. No knockouts were scored, but there was plenty of action.

**SUBMARINES UNDER AMERICAN FLAG**

Baltimore, July 13.—Shattering of the British starvation blockade will soon be attempted by a fleet of giant undersea freighters, flying the American flag.

Inspired by the success of the German submarine freighter Deutschland, Manager Paul Hilken, of the Ocean Rhederei, Deutschland owners, is forming an American corporation to make undersea ships that will put the Deutschland in the pigmy class. Simon Lake, American submarine inventor, who fully a year ago predicted in a scientific paper that "we shall probably see some form of cargo-carrying submarine constructed for blockade running," will act in an advisory manner to the new company.

Hilken gave the United Press the following statement of his plans today:

"Captain Simon Lake, undoubtedly the pioneer in submarine invention, and Paul Hilken, American Manager of the Bremen Ocean Transportation company, are considering the advisability of forming a company to operate, under the American flag, a large fleet of freight carrying submarines. "The success of the trip of the Deutschland and the huge profits which are already assured—the cost of the vessel being practically paid by her first voyage—lead those who are planning the new venture to expect it to prove successful financially."

The cargo submarine Deutschland, inspiration for this enormous plan, was ready today for loading, preliminary to returning to Germany.

It looked as though the tug Timmons was ready to haul her away very soon. German Ambassador von Bernstorff was due this afternoon to see Captain Koenig and the crew and then to have dinner tonight with the party as the guests of Mayor Preston of Baltimore.

Copenhagen, July 13.—German newspapers assert that eighty submarines of the Deutschland class are now being built and that twenty will be completed in August.

**LIQUOR SALES INCREASE IN PROHIBITION TERRITORY**

Portland, July 13.—Liquor sales in this prohibition territory are increasing the county clerk revealed today. During the month of June 11, 867 residents had liquor shipped to them. In May 10,377 affidavits were filed. Each succeeding month has showed a marked increase.

**SOON TELL HUGHES HE IS CANDIDATE**

New York, July 13.—Charles E. Hughes will be told that he is the republican candidate for president on July 31, at 8 p. m., in Carnegie hall, New York city. Selection of this date for the perfunctory ceremony was announced today by Senator Warren G. Harding, chairman of the notification committee, following a conference with Hughes and Chairman Wilcox.

"There will be invited to be present at the ceremony members of the republican national committee, delegates and alternates to the republican convention, heads of republican organizations throughout the various states, progressive national committeemen and republican governors and members of congress," said Senator Harding. "The notification ceremony will be followed by a reception, given by Mr. Hughes, at the Hotel Astor to the invited guests."

"Others who will be invited will be prominent members of the progressive party."

Harding was asked whether Roosevelt would be present.

"I can certainly say, as chairman of the committee," he replied, "that the colonel will be welcome. He certainly will be asked to attend, as will former President Taft."

**SHRINERS IN 1917 GO TO ATLANTA**

Buffalo, July 13.—James C. Berger, of Denver, Colo., was elected imperial outer guard at this afternoon's session of the imperial council of the Nobles of the Mystic Shrine after a spirited contest. He defeated David W. Crossland, of Atlanta, Ga., the other six candidates withdrawing.

Minneapolis was formally awarded the 1917 conclave.

The charter asked by San Antonio, Texas, for a new temple was granted.

Topeka's request for a dispensation was tabled for a year. Roanoke, Va., was granted a dispensation.

**EXPENSE AT BORDER \$10,000,000 MONTH**

Washington, July 13.—It is costing the United States \$10,000,000 a month to maintain its military establishment on the Mexican border. Under ordinary conditions it takes \$310 a year to feed, clothe and pay a private; \$250 additional goes for ammunition, camp sites, water systems and incinerating plants. Maintenance of the hospital corps is estimated to cost at least \$50 a man.

The national guard concentration is costing the government millions in railroad fares and extraordinary expenditures. Hundreds of motor trucks have been bought for the Mexican expedition.

**GLYCERINE AND BARK PREVENT APPENDICITIS**

The simple mixture of buckthorn bark, glycerine, etc., known as Adler-Ika, astonishes Grants Pass people. Because Adler-Ika acts on BOTH lower and upper bowel, ONE SPOONFUL relieves almost ANY CASE constipation, sour stomach or gas. It removes such surprising foul matter that a few doses often relieve or prevent appendicitis. A short treatment helps chronic stomach trouble. The INSTANT, easy action of Adler-Ika is astonishing. **If a "Want Ad" Can Do It for You, Don't Try to "Save the Expense"**

**WHEN YOU** have use for a telephone, you use it—counting the cost as reasonable, almost trivial, perhaps, for the service rendered. You thus take the "short cut" to the result you want to secure.

When you have business that can be consummated BEST through using classified advertising, USE IT!

For the usual "want ad tasks" are such as can be accomplished satisfactorily ONLY through want-ad advertising.

If you are harrowed by anxiety about that tenantless property, a "campaign of classified advertising" is the only BUSINESSLIKE SOLUTION OF THE MATTER. This "campaign" may not need to extend beyond a few consecutive insertions of your "To Let" ad—and the expense of securing a tenant, and restoring the EARNING POWER OF YOUR PROPERTY, may be almost nominal.

If the future seems all asked to your vision because you are out of work, a "want ad campaign" becomes a "real business proposition" to you—one that should be taken up without an hour of delay.

If you have property to sell, and the "TIME ELEMENT" is important, a real estate advertising campaign is, probably, the most urgent business plan you have before you today. A series of "ads," published consecutively UNTIL THE PROPERTY IS SOLD, may involve so little expense, measured by the result, that it will hardly "count" at all!

If you get, from "want advertising," every variety of service it can render you, you'll find life a great deal simpler and easier.
